The Luxury Collections

MG Bross presenta gli arredi più esclusivi per parrucchieri e saloni di bellezza, progettati dai più famosi designer e studi di design internazionali. Offre una selezione di posti lavoro in materiali pregiati, lavatesta con massaggio e cromoterapia, poltrone dal design unico, e molti altri prodotti per saloni di successo. Il brand nasce nel 1995, quando, anticipando i trend, lancia la collezione *Minimal Zen*. Da allora, ogni anno presenta nuovi prodotti coinvolgendo nuovi designer, utilizzando nuovi materiali, sperimentando soluzioni innovative.

MG Bross presents the most exclusive furniture for beauty and hair salons, designed by world famous international designers. The brand offers a selection of styling stations in luxury materials, shampoo stations with massage and chromatherapy, salon chairs with unique designs, and many other products to make every salon stand out. The brand is born in 1995 with the launch of the *Minimal Zen* Collection. Since then, every year new products are developed involving new designers, using new materials, experimenting innovative solutions.

lady Jane

by m̄rcel w̄anders

“Poetica e funzionale, la Jane Collection rispetta requisiti tecnici specifici, include i migliori materiali, e risponde ergonomicamente al comfort sia del cliente che dello stilista, che lavora tutto il giorno. Con questa collezione, abbiamo creato pezzi versatili che si completano a vicenda e vanno a creare un ambiente armonico, indipendente dal salone in cui saranno inseriti.” dice Gabriele Chiave, Creative Director.

La Jane Collection by Marcel Wanders Studio per Gamma & Bross porta il lusso di una spa nel salone professionale.

Le curve poetiche, le forme precise, i dettagli lussuosi e gli accessori versatili della collezione caratterizzano il design di questi prodotti, che possono trasformare ogni spazio in un ambiente elegante ed accogliente.

Realizzati per offrire una funzionalità in grado di elevare lo spirito, la collezione porta una brezza fresca nel settore dell’acconciatura professionale, mostrando un perfetto bilanciamento fra utilità ed estetica.

“Abbiamo creato questa collezione per permettere ad ogni salone di trasformarsi in una destinazione. Il design dei prodotti riflette il corpo umano in uno stato di riposo, permettendo ai clienti di scoprire la bellezza, mentre ci si prende cura della loro bellezza”, dice Marcel Wanders, Creative Director.

Mentre questa collezione impressiona magnificamente nel suo insieme, ogni pezzo emerge come simbolo di bellezza individuale.

“Poetic and functional, the Jane Collection adheres to specific technical requirements, includes durable materials and ergonomically responds both to the comfort of the customer and the hair stylist, who works all day. With this collection, we have created versatile pieces that complement each other and provide an harmonic environment, independently of the salon they will live in.” says Creative Director Gabriele Chiave.

The Marcel Wanders Studio’s Jane Collection for Gamma & Bross brings spa-like luxury to professional hair salons.

Highlighting the design of these pieces are the collection’s poetic curves, precise silhouettes, rich details and versatile accessories that can transform any space into an elegant and welcoming interior.

Made to function while uplifting the human spirit, the collection is a fresh breeze in the field of professional equipment, demonstrating a beautiful tango between purpose and aesthetics.

“We created this collection to enable any salon to be transformed into a destination. The design of the pieces reflects the human body at rest, allowing guests to discover beauty while being made beautiful themselves,” said Marcel Wanders.

While this collection impacts beautifully as a whole, each piece also stands alone as an individual throne of beauty.

Collezione privata

Le creazioni di Marcel Wanders Studio combinano eleganza e sofisticazione ad un tocco di fantasia ludica che contraddistingue sempre le opere di questo geniale designer.

“La collezione che ho disegnato per Gamma & Bross si ispira ai saloni di bellezza del passato, dove le donne passavano molto tempo per farsi belle. La collezione è intitolata “Collezione Privata”. L’obiettivo del mio progetto era quello di trasformare il tempo trascorso nel salone in una indimenticabile esperienza personale ed intima.

Infine, credo che così come i gioielli sono lo strumento di seduzione della donna, tutti gli oggetti della collezione, pur essendo fondamentalmente delle attrezzature tecniche, sono soprattutto dei preziosi elementi di arredo”.
M. Wanders.

Marcel Wanders Studio designs reflect modern and elegant sophistication, with a touch of his playful fantasy.

“The collection I have designed for Gamma & Bross is inspired by the salon experience of the past, where women would spend time beautifying themselves. The collection is titled “Collezione Privata” (Private Collection) and with the design I have sought to make the salon experience beautiful, personal and intimate.

Above all, I believe women’s tools should be jewels, so all elements of the collection while technical equipment is first and foremost beautiful pieces of furniture.” M. Wanders.

“Dressing Beauty” by

Nel 1965 Aldo Coppola apre il suo primo Atelier in Via Manzoni in centro a Milano, e inizia a collaborare per i Set Fotografici delle più importanti testate italiane ed internazionali. Realizza anche acconciature all'avanguardia per le sfilate di moda con gli stilisti più prestigiosi (Giorgio Armani, Versace, Gianfranco Ferré, Valentino e molti altri). L'azienda si sviluppa con l'apertura e il posizionamento in aree strategiche di nuovi Atelier diretti, con l'istituzione della prima agenzia di freelancer d'Italia dedicata alla moda, alle campagne stampa, tv, fashion show, fino alla divulgazione della formula franchising Aldo Coppola, alla creazione del progetto Accademia, alla distribuzione di prodotti e accessori a marchio Aldo Coppola.

Oggi l'azienda si diversifica in vari brand, come Go Coppola e Shatush, divulgando lo sviluppo anche in campo internazionale.

Gamma & Bross presenta la nuova linea “Dressing Beauty” by Aldo Coppola, un nuovo modello di Design che rivoluziona il modo di concepire e vivere il salone, che cambia d'abito per assecondare stagioni, mode, stati d'animo e ricordi. L'arredo, che si può “vestire e svestire”, può mutare a piacere scegliendo il Design dalla cartella tessuti. Per un look in grado di rinnovarsi e stupire sempre.

In 1965 Aldo opened his first salon on Via Manzoni in Downtown Milan and began working as a Hair Stylist for the photo shoots of top Italian and international magazines. He also created avant-garde Hairstyles for the Fashion Shows of some of the world's most famous designers (Giorgio Armani, Versace, Gianfranco Ferré, Valentino, and many more). The company grew, opening new directly-owned salons in strategic urban areas, establishing the first Italian freelance hair stylist and makeup artist agency for fashion shows, advertising campaigns, magazines and TV, promoting the Aldo Coppola franchising formula, creating the Academy project, and selling Aldo Coppola products and accessories. Today the company has diversified, adding new brands such as Go Coppola and Shatush and expanding on an international level.

Gamma & Bross presents the new “Dressing Beauty” collection by Aldo Coppola. This newly designed concept revolutionizes the way of conceiving a living salon, which changes clothes to suit seasons, fashions, moods and memories. For a look that can always amaze and be renewed, the furniture, which you can “dress and undress”, can change at will by choosing the Design from the fabric folder.

ECHOES

C O L L E C T I O N

by Anton Kobrinetz

La collezione "ECHOES" firmata da Anton Paul Kobrinetz combina le più moderne tecnologie di produzione con il più alto standard artigianale Italiano per creare ancora una volta una linea di arredo destinata a diventare un classico del design.

La filosofia di Gamma & Bross nasce dall'idea che il design è l'elemento chiave della sua identità. L'immagine di un'azienda si riflette attraverso il prodotto dove il design è l'elemento fondamentale del processo.

Gamma & Bross presenta "ECHOES" collection, una linea caratterizzata da un design senza tempo.

"L'obiettivo era di creare forme sensuali e superfici che emettono un'attrazione emozionale. Ogni oggetto è disegnato nel linguaggio di forme organiche avvolte con materiali sintetici, trasformate quindi da solidi a liquidi e viceversa. Il punto è di ottenere un design duraturo, creando degli oggetti come simboli per comunicare un'immagine forte che evoca la memoria fisica che supera fashion e trend." A. Kobrinetz.

Their newest collection entitled "ECHOES", designed by Anton Paul Kobrinetz, combines the latest manufacturing technology with the highest standard of Italian craftsmanship, to create yet another line of furniture destined to become a Design classic.

The Gamma & Bross philosophy starts with the idea that design is the key element from which brands are built. The image of a company is defined by the visual communication of the goods it produces, and the instrumental element in this process is design.

Gamma & Bross is proud to present the "ECHOES" collection, setting its brand apart with timeless design.

"The collection draws inspiration from forms found in nature, particularly those that come from the sea, evoking antiquity at the same time a trace of the future, thus the name.

The aim is to create pure and sensual forms and surfaces that radiate emotional appeal. Each object is designed with the language of organic shapes enveloped in synthetic materials, transformed from solid to liquid and back again. The key is to achieve an enduring design, by creating the object as a symbol to communicate a strong image, that evokes a physical memory that goes beyond fashion and trend." A. Kobrinetz.

nutopia
Karim Rashid
Karim

Karim Rashid realizza la sua missione di modificare la percezione degli oggetti attraverso nuovi livelli sensoriali.

La collezione Nutopia è incentrata sul Teknowash, un sistema rivoluzionario che unisce il posto di lavaggio alla cromoterapia, al suono audio surround e al totale comfort del massaggio ad aria. Il processo di costruzione per la realizzazione della poltrona Sensual consiste in un avanzato sistema di produzione di scocca strutturale “seamless” che conferisce un alto livello di comfort. La postazione di lavoro Human ed il banco reception Komplete diventano corpi illuminanti e creano un effetto di fluttuante leggerezza.

Integrando alta tecnologia a forme scultoree, la collezione Nutopia di Karim Rashid rappresenta un'icona nel design dell'industria dei saloni di bellezza.

Karim Rashid applies his manifesto of changing the world with the concept of taking the user to a new level of sensation.

The Nutopia collection is centered around Teknowash, a revolutionary system that combines chromo-therapy and an audio surround sound in a total comfort shampoo unit. Rashid's Sensual chair is made using the most advanced molding process that creates both a structural frame as well as seamless comfort. Further, he uses illuminated forms in both the Human workstation as well as the Komplete desk to create a weightless floating effect.

Through the integration of high technology and sculptural forms, Rashid's Nutopia collection represents the design icons of the beauty industry.

DESIGN by F.A. PORSCHE

Lo studio è stato fondato a Stuttgart, in Germania, nel 1972. Il suo ideatore, Ferdinand Alexander Porsche è l'artefice della celebre vettura 911.

Proprio il suo grande successo mondiale è stato il volano della diffusione del marchio Porsche Design.

Questa tradizione prosegue ancora oggi, incentrata sull'efficienza delle forme e sulla qualità dei materiali. La gamma attuale propone una serie di prodotti esclusivi: moda in pelle, valigeria, accessori, scarpe moda, cronografi e utensili da cucina, occhiali da sole e la personalizzazione di dispositivi cellulari.

La filosofia di design di F.A. Porsche emerge chiaramente in questa collezione che combina materiali tecnologici al design minimale. L'approccio Porsche di sviluppo dei prodotti innovativi è caratterizzato da forme che sono parte integrante delle loro funzioni. La combinazione di design funzionale e minimale con le innovazioni tecnologiche è ciò che rende la collezione F.A. Porsche un classico senza tempo.

The Porsche Design Studio was opened in Stuttgart in 1972 by professor Ferdinand Alexander Porsche, the man who designed the Porsche 911, grandson of the Porsche founder.

The 911 quickly became the quintessential sports car and a design classic, along with many other products that professor F. A. Porsche designed: watches, glasses and writing utensils were created and marketed worldwide under the "Porsche Design" brand.

The design philosophy of F.A. Porsche clearly emerges in this collection that integrates technological materials and minimal design. The Porsche approach to develop innovative products starts with forms that are more integral to their intended functions.

The combination of functional, and minimal design with technological innovations is what makes the F.A. Porsche collection a timeless classic.

GAMMASTORE

Il Design accessibile

GammaStore offre arredi e attrezzature per parrucchieri e saloni acconciatura a prezzi ragionevoli.

La qualità del Made in Italy non è mai stata così accessibile. Ogni anno Gamma & Bross presenta le nuove collezioni GammaStore in promozione, con la volontà di offrire linee di prodotto "Made in Italy" di alta qualità e design a prezzi estremamente contenuti.

Sin dall'inizio ci siamo posti una regola ferrea, una legge: "Si produce solo nel nostro territorio ad ogni costo e senza eccezioni, solo così si matura professionalità ed eccellenza." L'entusiasmo e la motivazione dei nostri collaboratori dipendono da questa regola e dalla certezza di aver contribuito alla realizzazione di un sogno che gli italiani da sempre hanno coltivato attraverso la costruzione di prodotti di prestigio.

***GammaStore** offers furnishings and equipment for hair shops and salons at reasonable pricing. Made in Italy quality has never been so affordable. Every year Gamma & Bross introduces new GammaStore collections on promotion, with the will to offer authentic "Made in Italy" product lines, with high quality and design at a very low price.*

From the beginning we hold firm to one rule: "To produce domestically no matter the cost, without exception", that is the only way to control quality, detail and mature excellence and professionalism."

The enthusiasm and motivation of our team depend on this rule and by the certainty to have contributed to the realization of a dream that Italians have always attained through the production of prestigious products.

DOLLCHAIR' (Poltrona didattica). Gamma&bross presenta DOLLCHAIR' , la prima poltrona brevettata specificamente indirizzata al training scolastico. DOLLCHAIR' dispone di un sistema a scomparsa che elimina e sostituisce il tradizionale supporto per testine integrandolo all'interno dello schienale della poltrona. DOLLCHAIR' è estremamente pratica e di facile uso , rende infatti il lavoro dello studente strettamente reale grazie alla posizione della testina che simula il cliente seduto sulla poltrona. L'utilizzatore è in grado di lavorare proprio come se fosse con un cliente reale , con la possibilità ulteriore di regolare in altezza la poltrona. DOLLCHAIR' permette inoltre di riporre direttamente all'interno dello schienale della poltrona il perno di sostegno della testina per un utilizzo tradizionale della poltrona , evitando tutte quelle operazioni di smontaggio e rimontaggio delle apparecchiature attualmente in commercio. DOLLCHAIR' è costruita interamente in Italia con materiali di alta qualità.

DOLLCHAIR' (Teaching chair). Gamma&Bross presents DOLLCHAIR' , the first patented chair specifically designed for school training. DOLLCHAIR' has a retractable system that eliminates and replaces the traditional heads-support for integrating it into the backrest of the chair. DOLLCHAIR' is extremely practical and easy to use; it makes the students experience very realistic thanks to the position of the head that simulates the customer sitting on the chair. With the additional possibility to adjust the height of the chair, the user is able to work just as if he or she were with a real client, DOLLCHAIR' also allows to put the head support directly inside the backrest of the chair for a traditional use, avoiding annoying assembly operations typical of the equipment currently on the market. DOLLCHAIR' is "Made in Italy" with high quality materials.

DOLLCHAIR' (Ausbildungsstuhl). Gamma&Bross präsentiert DOLLCHAIR®. Es ist der erste Stuhl, der speziell für die Schulausbildung entwickelt wurde. DOLLCHAIR® verfügt über eine versenkbare Kopfhalterung, die die traditionellen Halterungen ersetzt. Die Halterung lässt sich komplett in der Rückenlehne versenken. DOLLCHAIR® ist extrem praktisch und einfach zu bedienen. Die Schüler können somit sehr bequem am „Kopf“ arbeiten und die zusätzliche Höhenverstellung des Stuhles und die traditionelle Anbringung der Halterung, in der Rückenlehne, vermittelt einen realistischen Eindruck. Außerdem erspart sich der Anwender lästige Montagearbeiten, die bei anderen Stühlen obligatorisch waren. DOLLCHAIR® wird aus hochwertigen Materialien hergestellt und ist „Made in Italy“.

DOLLCHAIR

DOLLCHAIR' (Fauteuil didactique). Gamma&Bross présente DOLLCHAIR' , le premier fauteuil breveté adressé spécifiquement à la formation scolaire. DOLLCHAIR' dispose d'un système rétractile qui élimine et remplace le support pour têtes traditionnel en l'intégrant dans le dossier du fauteuil. DOLLCHAIR' est extrêmement pratique et facile à utiliser, il rend le travail de l'étudiant très réaliste grâce à la position de la tête qui simule le client assis dans le fauteuil. L'utilisateur est en mesure de travailler comme s'il était avec un vrai client, avec la possibilité supplémentaire de régler la hauteur du fauteuil. DOLLCHAIR' permet également de placer la broche de support de la tête directement dans le dossier du fauteuil, pour une utilisation traditionnelle du fauteuil, en évitant toutes les opérations de démontage et de remontage des équipements actuellement sur le marché. DOLLCHAIR' est construit entièrement en Italie avec des matériaux de haute qualité.

DOLLCHAIR' (Sillón didáctico). Gamma&Bross presenta DOLLCHAIR' , la primera silla patentada y dirigida específicamente para la formación de escuelas. DOLLCHAIR' cuenta con un sistema retráctil que elimina y reemplaza el soporte tradicional para cabezas, integrando-lo en el respaldo de la silla. DOLLCHAIR' es extremadamente práctico y fácil de usar. Hace que el trabajo de los estudiantes sea muy realista: gracias a la posición de la cabeza, que simula el cliente sentado en el sillón, el usuario es capaz de trabajar como si estuviera con el cliente real, con la posibilidad adicional de ajustar la altura de la butaca. DOLLCHAIR' también permite guardar el pasador del soporte de la cabeza directamente en el respaldo del sillón para un uso tradicional de la silla, evitando todas las operaciones de desmontaje y montaje típicas de todos los equipos actualmente disponibles en el mercado. DOLLCHAIR' está fabricado con materiales de alta calidad, en Italia.
